

APPLIED INTELLIGENCE: AI TOOLS AND PROJECTS THAT MATTER

Empowering AI-driven Transformation

IOANNIS KAPSOKALYVAS

IKAPSOKALYVAS@INTTRUST.GR

At a glance

Portfolio of Services

- Dynamic Infrastructure
- Application Development
- Database Services
- Managed Services

Microsoft Solutions Partner

- Modern Work
- Infrastructure (Azure)
- Data & AI (Azure)
- Digital & App Innovation (Azure)

Engineering **Excellence** at our core

170+ Engineers • **400+** ICT Certifications • **100+** Microsoft Certifications

Microsoft Advanced Specialization

Infrastructure and Database Migration to Microsoft Azure

Microsoft **Partner of the Year** (2018) • **Direct** Microsoft CSP • **Premier Support** for Partners

Customer service: Chatbots and virtual assistants

Banking: Search documents using natural language

Manufacturing: Predictive maintenance and quality control

Energy management: Efficiency in power usage

Environmental sustainability: Physical resources management

Software Engineering: Accelerate development

What is Applied Intelligence?

strategic use of AI tools to solve business challenges and create measurable impact

Natural Language Processing

Machine Learning

Enhance decision - making
Improve customer experience
Improve strategic planning
Reduce cost
Drive innovation

Workflow Integration

Integration into existing workflows

collect and process water metrics from IoT devices

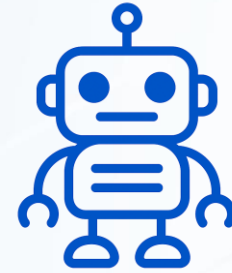

Projects that matter: Chatbot

use natural language to search into data and documents

Natural Language Processing

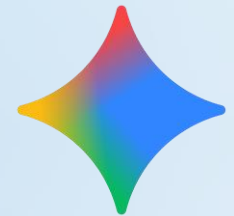

Improve customer experience

Reduce cost

Drive innovation

GitHub Copilot models

You can manage policies and grant access to Copilot models for all members with access. Note that users from other organizations may gain access if permitted by their administrators.

Anthropic Claude 3.5 Sonnet in Copilot If enabled, members of this organization will have access to the latest Anthropic Claude 3.5 Sonnet model. Learn more about how GitHub Copilot serves Anthropic Claude 3.5 Sonnet.	Enabled
Anthropic Claude Sonnet 4 in Copilot If enabled, members of this organization will have access to the latest Anthropic Claude Sonnet 4 model. Learn more about how GitHub Copilot serves Anthropic Claude Sonnet 4.	Enabled
Anthropic Claude Sonnet 4.5 in Copilot If enabled, members of this organization will have access to the latest Anthropic Claude Sonnet 4.5 model. Learn more about how GitHub Copilot serves Anthropic Claude Sonnet 4.5.	Enabled
Anthropic Claude Haiku 4.5 in Copilot If enabled, members of this organization will have access to the latest Anthropic Claude Haiku 4.5 model. Learn more about how GitHub Copilot serves Anthropic Claude Haiku 4.5.	Enabled
Google Gemini 2.5 Pro in Copilot If enabled, members of this organization will have access to the latest Google Gemini 2.5 Pro model. Learn more about how GitHub Copilot serves Google Gemini 2.5 Pro.	Enabled
OpenAI GPT-5 in Copilot If enabled, members of this organization will have access to the latest OpenAI GPT-5 model. Learn more about how GitHub Copilot serves OpenAI GPT-5.	Enabled
OpenAI GPT-5-Codex in Copilot Preview If enabled, members of this organization will have access to the latest OpenAI GPT-5-Codex model. Learn how GitHub Copilot serves OpenAI GPT-5-Codex and confirm compatibility with your team's IDEs in our documentation.	Enabled
OpenAI GPT-5 mini in Copilot If enabled, members of this organization will have access to the latest OpenAI GPT-5 mini model. Learn more about how GitHub Copilot serves OpenAI GPT-5 mini.	Enabled
xAI Grok Code Fast 1 in Copilot If enabled, members of this organization can access and send data to xAI Grok Code Fast 1. Learn more.	Enabled
